FOCUS

- > Web Designing & Development
- > Figma to WordPress / Webflow
- > Customised Theme & Plugin Development
- > Healthcare & pharmacy e-commerce
- > End-to-end: schema → UX → DevOps

01 PROFILE

Full-stack web developer with **10+ years** building custom WordPress, WooCommerce, and PHP web applications. I specialize in **custom theme & plugin engineering** for healthcare and e-commerce clients - building commercial, license-protected products end to end, from database architecture and secure activation to admin UX and DevOps - alongside responsive front-ends in WordPress, Elementor, and Webflow.

02 EXPERIENCE

Web Developer / Front-End Developer 2016 – PRESENT

Full-Time Independent Freelancer

Working as a full-time freelance developer delivering **WordPress & custom WordPress development**, e-commerce and WooCommerce builds, **PHP web application development**, front-end development, and responsive web design for clients around the world.

Senior Web Developer 2014 – 2016

Rangam Infotech Pvt. Ltd.

Designed, coded, and maintained **WordPress websites** from layout through to functionality against client specifications, focused on building visually appealing sites with user-friendly design and clear navigation.

Lead Web Designer 2012 – 2014

Advantage Web & Graphics Solutions

Implemented the **visual elements users see and interact with** in web applications, working alongside back-end developers to integrate front-end work with server-side application logic.

03 EDUCATION

B.Tech - Computer Engineering 2009 - 2012

Gujarat Technological University

Bachelor of Engineering in Computer Engineering, graduated with **Distinction** from Ahmedabad Institute of Technology, affiliated with Gujarat Technological University.

Diploma - Computer Engineering 2006 – 2009

Technical Education Board of Gujarat

Diploma in Computer Engineering, completed with **Distinction**. Selected for HP computer services, but chose to pursue a career in web development.
